President's Message

Brothers and Sisters,

We have one of the best party's of the year coming up.

10/13/06 - 10/15/06

26th Annual Spooks N' Scoots Memorial Run and State Meeting.

This is one of the best Runs of the year and a great ride as well. Spooks N' Scoots will be held in Brooksville, Fl. located just north of Tampa / St. Pete in some of the most beautiful countryside in Florida. Camping and Hotels are available. The campgrounds open at 12:00 noon on Friday 10/13 and close at 5:00 PM Sunday 10/15.

Saturday 10/14 We will assemble at Boonies Restaurant 14555 Southern Blvd. Loxahatchee at 6:00 AM kickstands up promptly at 7:00 AM.

The State Meeting begins at 2:00 PM 'til about 6:00. A great party follows at the campgrounds. If you plan on riding up with us you don't have to attend the meeting, you can head out on some of the best roads for riding you will find anywhere in the state. If you didn't make the Tallahassee ride this is one you shouldn't miss.

The camp grounds are spacious. There are vendors and live music and the party goes 'til ???

I have heard some of our members say they really don't know too many people in the chapter. What are you waiting for? There's no better way to meet and get to know each other then a ride with you're brothers and sisters of our chapter to one of our state events. This one will be a very special one for us because it's the 1st Anniversary and the birth of our chapter.

President's Message - CONT'D

There's camping and hotels, plenty of room for RV's and camper trailers, great roads to ride on and a time for us all to get together and show our pride and solidarity as ABATE Palm Beach Chapter and as members and of ABATE of Florida. I urge you all to join us, this is an important ride for us. We need to have a strong showing, please plan on riding with us. We will be riding out Sunday morning after breakfast for the return trip back to Palm Beach.

I know I've said it before and I will continue to remind everyone how important it is for us to function as a chapter. I would hope when you joined ABATE and our chapter it was done for all the right reasons. I value you and each and every member of our chapter. Your support is vital to our existence and our mission. We are in our first year as a chapter, we have grown steadily every month and have received several awards in recognition of our accomplishments. Our life memberships rival that of some of the largest chapters in the state. We have a lot to be proud of, we have gained the support of independents, clubs and other riding organizations. We have in a small way given representation to the Palm Beach motorcycle community. I see at as a great opportunity to become more of a voice, to become more organized and effective in taking our message to those who represent us in Tallahassee and D.C.

We will be celebrating our 1st Anniversary at the V.F.W. 5335 in Boynton Bch. immediately after the chapter meeting on October 21st. I would like to take this opportunity to invite everyone, ABATE members, independents, club members and members of other riding organizations to join us for this celebration. The meeting starts at 11:30 AM, but you don't have to attend the meeting to join the party. Our Brothers of the Legion Riders will be cooking up some of the best BBQ you ever had complete with all the fixins. The party will begin around 12:30 PM. Stop in and have a cold one, the VFW opens at 11:00 AM.

Back in October of last year the annual "Biketoberfest" in Daytona turned out to be one of the most deadly events in the history of motorcyclist gatherings. From the reports I read, the primary cause of fatality accidents involving motorcycles was people in cages killing motorcyclists by violating their right of way.

A "Stiffer Penalty Law" was passed in July of 2006. In my opinion, as a consolation victory for ABATE and other MRO's that supported the Bill. A step in the right direction, absolutely.... a solution to the problem, not by a longshot. What good is the law if the violators aren't being prosecuted? In just about every accident reported involving a motorcycle the article or news report ends with "no charges have been

President's Message - CONT'D

filed pending an investigation". What investigation? Chances are there wont be an account of what happened from the motorcyclist. Witnesses rarely show up in court and consequently the violator walks away and we never hear anything more about it. That's why I say this law was passed as a consolation victory. It's the same old story with a new set of words.

We need to follow up on some of these cases, look at what happened when Ben Roethlisberger was involved a right of way accident with a cage. It was all over the papers and media news reports for weeks. They acted as if this was the first time something like this ever happened. The way it was reported is another story altogether. The fact that Roethlisberger wasn't wearing a helmet was the focus of the report and very little if any mention was made of the actual cause of the accident and the results of the "INVESTIGATION". Were charges ever filed? Was the driver of the cage ever prosecuted? What was the decision of the courts? Were there any fines or compensation to the victim? Nothing has ever been reported, at least I have not of heard or seen anything as with every news story regarding this kind of accident.

I think it's time to make it our mission to bring "ACCOUNTABILITY" back into the picture. In our society today nobody is accountable for anything because nobody is accountable for their own actions. Rehab is becoming a safe house for criminals smart enough to realize that if you get into a 12 step program or group therapy they're pretty much guaranteed they can get way with just about anything.

Most recently the Mark Foley scandal. He obviously has been doing this sick sh*#t for some time but only after he'd been caught did he suddenly realize he had a problem. So what's he trying to say, that up to the point where he got caught he didn't think he was doing something despicable? And, only after he got caught did he realize he was a gay alcoholic pedophile and that he can't be held responsible or accountable for his actions because of his condition?

In the state of Florida police officers are not required to complete the section of an accident report designated "Distractions". That section which ask's what that person was doing at the time the accident occurred. Were they changing the radio station, adjusting the mirror, dialing or talking on a cell phone among the other ridiculous things we all have seen people doing behind the wheel. Which in fact allows them to file an incomplete report of who was actually responsible for the accident and excuses that person from being held accountable for their actions because it's not required to record all the facts. The police officer can't be held responsible or

President's Message - CONT'D

accountable for filing an incomplete report because they're not required to and the person responsible for the accident is not held accountable for their actions and the victims and their families have no recourse. Unless of course they choose to pursue justice by hiring an attorney and giving up much of what was their daily lives for a year or so to get what they should have been entitled to in the first place. Justice!

It takes awareness to identify a problem, it takes education to make people aware that there is a problem and it takes action by the people to solve problems. No one person can bring about change in our society, we need to come together as citizens of this great nation to identify, educate and take action. We can not afford to allow political figures to inform us as to who will stand with us against injustice and corruption. If you listen to what politicians say about their opponents and if what they say about one another is true, none of them are fit to serve as representatives of the people. It's up to us as citizens to educate ourselves and others as to who will best represent us as citizens from the local level to Washington D.C.

Identify, educate and take action. **VOTE!**

Ride Free, Ride safe

Strongbow President

president@abatepalmbeach.com

ABATE P.B.C.

561-483-4283

**Motorcycle Rights & Safety
Dedicated to
"Freedom of Choice, Freedom of the Road"**

You may know us as the motorcycle organization that got the helmet law repealed in Florida or from our motorcycle rights and safety rally's throughout the year. ABATE of Florida is not a club, we are a motorcycle rights & safety organization dedicated to promoting motorcycle safety while remaining ever vigilant of the legislative issues concerning motorcyclists' nationwide.

THERE ARE NO MANDATORY REQUIREMENTS

Because we are not a club there are no mandatory rides or meetings to attend. We do not require our members to wear our patch. If you are currently a member of a motorcycle club or any other motorcycle association or organization we welcome your support as a member.

YOUR COLORS OR PATCH ARE ALWAYS WELCOME IN OUR HOUSE

Our most recent victories include the passing of Bill HB1697 requiring stiffer penalties for a motorist turning left in front of another motorist, one of the leading causes of injury and death to motorcyclist'. A reformed bill regarding "Ape Hangers" has also been passed, handlebars are now to be measured from the riders shoulders rather than the seat. We also helped beat down legislation proposed by Senator Frank Lautenberg (D-NJ) on an amendment to the transportation, reauthorization bill (SAFE-TEA) that would re-institute a federal helmet law for all riders by denying federal transportation and safety dollars to that state.

WE ARE NOT ANTI-HELMET, WE ARE ANTI-HELMET LAW

One of the most popular misconceptions about ABATE is that we are anti-helmet. Nothing could be further from the truth. We are "anti-helmet law" if you chose to ride with or without a helmet it's your choice, it is your right to decide whether wearing a helmet is right for you. ABATE is an organization fighting to protect your rights.

"FREEDOM OF CHOICE, FREEDOM OF THE ROAD"

There are over 7,000 members of ABATE in the state of Florida with over 30 active chapters. We feel Palm Beach County has huge potential in becoming one of the largest chapters in the state. With its large expanse and thousands of motorcyclist', a Palm Beach County chapter would become a viable and influential voice in raising motorcycle rights, safety and awareness. This chapter borders will be primarily Northern Broward County and all of Palm Beach County.

***From: Rocky
Chaplain, ABATE P.B.C.***

"THE LONE CHRISTIAN"

Recently another Christian I know quit the Church. She was disappointed and hurt by something someone had done and felt she couldn't deal with such situations anymore. I doubt that she left the Faith though. Statistics show that most Christians who leave the church simply join the "Virtual " or "Media Church" through radio, television, the Internet, books and CD's. It's an attractive trade: excellent teaching and worship music of your own choosing in exchange for the frustrating, messy and even painful Church.

Virtual Church is in your control: convenient, encouraging, polished and non-confrontational. A press of a button will instantly remove any speaker, message or scene that isn't to your liking. Plus, no one knows whether you showed up or not.

In contrast, at "Real" Church, it's nearly impossible to avoid bumping into people who don't necessarily think or live like you and who perhaps even disagree with you. Church Members' Hypocrisy, Jealousy, Hostility or Pettiness is right in your face. No wonder many Christians are leaving their local Churches for the Serenity, Enjoyment and Ease of such a restful atmosphere and relative isolation.

Unfortunately, that's just the problem. Let me be quick to say that I'm a fan of "Virtual" Churches. Many Christians speakers on the information highways have challenged me to change my life.

As a sole diet however, it can lead to the equivalent of Sacred Scurvy - the absence of key ingredients necessary for true Spiritual Health. Each of us is a work in progress - which is why we need each other. Leaving Church won't solve anything. Our

weakness and destructive attitudes will remain firmly entrenched if we retreat from the transformation process Jesus has intended for us.

People will fail us, but if we run away from conflicts, we won't learn to forgive or be forgiven. When we try to live the Christian Life on our own, we leave ourselves vulnerable. That's why Solomon wrote, "He who separates himself seeks his own desire, he quarrels against All Sound Wisdom: (Proverbs 18:1)

Church is the place where we gradually become the kind of people Christ plans to use to populate Heaven.

'til next time, ride safe
Your Brother in Christ

~The Truth About Bikers~

I saw you,
hug your purse closer to you in the
grocery store line.
But, you didn't see me,
put an extra \$10.00 in the collection
plate last Sunday.

I saw you,
pull your child closer when we passed
each other on the sidewalk.
But, you didn't see me,
playing Santa at the local mall.

I saw you,
change your mind about going into the restaurant.
But, you didn't see me,
attending a meeting to raise more
money for the hurricane relief.

I saw you,
roll up your window and shake your
head when I drove by.
But, you didn't see me,
driving behind you when you flicked
your cigarette butt out the car
window.

I saw you,
frown at me when I smiled at your children.
But, you didn't see me,
when I took time off from work to run
toys to the homeless.

I saw you,
stare at my long hair.
But, you didn't see me,
and my friends cut ten inches off for
Locks of Love.

I saw you,
roll your eyes at our leather coats and gloves.
But, you didn't see me,
and my brothers donate our old coats
and gloves to those that had none.

I saw you,
look in fright at my tattoos.
But, you didn't see me,
cry as my children were born and
have their name written over and in
my heart.

I saw you,
change lanes while rushing off to go somewhere.
But, you didn't see me,
going home to be with my family.

I saw you,
complain about how loud and noisy
our bikes can be.
But, you didn't see me,
when you were changing the CD and
drifted into my lane.

I saw you,
yelling at your kids in the car.
But, you didn't see me,
pat my child's hands, knowing he was
safe behind me.

I saw you,
reading the newspaper or map as you
drove down the road.
But, you didn't see me,
squeeze my wife's leg when she told
me to take the next turn.

I saw you,
race down the road in the rain.
But, you didn't see me,
get soaked to the skin so my son could
have the car to go on his date.

I saw you,
run the yellow light just to save a few
minutes of time.
But, you didn't see me,
trying to turn right.

I saw you, cut me off because you
needed to be in the lane I was
in. But, you didn't see me leave the
road.

I saw you,
waiting impatiently for my friends to pass.
But, you didn't see me.
I wasn't there.

I saw you,
go home to your family.
But, you didn't see me.
Because, I died that day you cut me off.
I was just a biker,.....
A person with friends and a family.
But, you didn't see me.

DIVISION OF FLORIDA HIGHWAY PATROL

TROOP E HEADQUARTERS

April 11, 1996

TO: All Troop E Personnel
FROM: Major Grady Carrick *GC*
Troop Commander
SUBJECT: HOV Lane Enforcement - Motorcycle Exemption

As has been related to you in the past, the high occupancy vehicle (HOV) lane restrictions do not apply to motorcycles. Motorcycles are exempt from the laws that govern the use of HOV lanes, as per Federal requirements found in the Intermodal Surface Transportation Efficiency Act of 1991. If you engage in enforcement of this violation, please be aware that this exemption exists.

Thank you for your attention in this matter.

NCOM NEWS BYTES

compiled and edited by Bill Bish
National Coalition of Motorcyclists (NCOM)

FALLEN FREEDOM FIGHTER It is with deepest regret that we report the death of Marty Schultz, ABATE of Maryland state director, who was riding home on the morning of August 30th after picking up his bike at a shop when he was struck and killed by the driver of a Jeep Liberty who ran a stop sign, violating the 44-year old rider's right-of-way.

"Since that time there has been considerable speculation in print and heard over the airwaves about whether or not he was wearing a helmet," said ABATE of Maryland in a prepared statement. "Yes, in fact he was wearing a helmet that came off during the collision or its devastating aftermath. The focus should not be on the helmet, which in many cases provides little or no protection. A helmet can become dislodged or come off during a collision; which is precisely what happened in the collision that took Marty's life. Instead, shift the focus to what happens before an accident occurs and strive for accident prevention.

Legislation advocated by ABATE of Maryland, Inc. during the 2006 session of the Maryland General Assembly sought to increase the penalties for right-of-way violations that result in serious injury or a fatality.

The National Coalition of Motorcyclists and the motorcyclists rights community extend our sincerest sympathies to the officers and members of ABATE of Maryland and the family and friends of Marty Schultz for their tragic loss.

"Another Freedom Fighter falls in the line of duty, thanks to one of the many irresponsible motorists out there," said Tiger Mike Revere, ABATE of Oklahoma state director and member of the NCOM Board of Directors, who further expressed a sentiment shared by our entire board; "I'm sick and tired of burying my Brothers and Sisters for America's right to drive stupidly!"

NHTSA REPORTS RISE IN MOTORCYCLE AND PEDESTRIAN DEATHS An increase in motorcycle and pedestrian deaths contributed to an overall rise in highway fatalities in 2005, reports the U.S. Department of Transportation's National

Highway Traffic Safety Administration (NHTSA). According to the federal agency, the total number of fatalities rose 1.4 percent from 42,836 in 2004 to 43,443 in 2005.

(Continued next page)

Acting Secretary of Transportation Maria Cino noted that a 13 percent increase in rider fatalities from 4,028 in 2004 to 4,553 in 2005 and an increase in pedestrian fatalities from 4,675 to 4,881 offset an overall decline in highway deaths.

In 2005, new motorcycle and scooter sales topped the one-million level for the third straight year, according to the Motorcycle Industry Council, and increased from 1,063,00 in 2004 to 1,116,000 in 2005, marking 13 straight years of increased sales.

Cino added that the number of people injured in motor vehicle crashes declined 3.2 percent from 2.8 million in 2004 to 2.7 million in 2005. Passenger vehicle occupant fatalities also dropped by 451, from 31,866 in 2004 to 31,415 in 2005, the lowest level since 1994.

MORE MOTORCYCLES, MORE NOVICE RIDERS Not everybody is screaming bloody murder over rising gasoline prices, reports ConsumerAffairs.com -- motorcycle manufacturers are ecstatic.

According to the Motorcycle Safety Foundation, more than 350,000 people will take its new-rider course in 2006 -- a 10 per cent increase over the year before. So many people want to ride that there's a waiting list for spots in the class. The wait can sometimes take months.

The Motorcycle Industry Council, also based in California, knows the number of riders is rising rapidly. Sales of motorcycles and scooters climbed 8 per cent in the first quarter of 2006, compared to the same period of last year, and is expected to continue its upward spiral.

Because of rising fuel prices, there are a lot more novices on motorcycles. In fact, the American Motorcyclist Association reports that 35 per cent of motorcycle owners plan to be on their bikes more as a direct result of pumped-up prices at the pump. The typical motorcycle gets 50 miles per gallon of gas, while the average passenger car gets less than half of that -- 22.4 miles.

PRESIDENT IMPRESSED WITH HARLEY-DAVIDSON President George W. Bush became the third American president to visit Harley-Davidson when he toured the York, Pennsylvania plant on Wednesday, August 16, but told reporters "I'm just looking so far."

Cheers and applause erupted inside the Harley-Davidson Inc. vehicle operations plant when Bush straddled a blue and white Softail and revved its engine again and again.

(Continued next page)

After meeting employees, the president shouted, "I'm impressed with the quality of the product here," over the sounds of the assembly line. "I'm impressed by the fact that these people really enjoy what they're doing," Bush told national and local media.

Later, following an economic sit-down discussion with company workers and management, Bush vowed to make the quality American product he'd seen firsthand open to more international markets. "There's a direct correlation between exports and jobs," Bush said. "The

more Harleys that are sold in places like Vietnam, China and India, the more likely someone is going to be able to find work."

Harley-Davidson's worldwide dealer network sold more than 125,000 motorcycles in the second quarter of the year, a 10 percent increase from the prior year. International retail motorcycle sales grew by 17.3 percent. The motorcycle maker also set a milestone this year when it opened its first dealership in China, a large new market for the company.

Bush also promised to help make permanent business tax credits for research and development, citing the company as a model for, as the president put it, "one of America's finest products."

WHO WANTS HELMETS The World Health Organization (WHO), a specialized health agency of the United Nations with 191 member states, is stressing the need for mandatory helmet laws worldwide and has published a road safety manual giving technical advice to governments on how to assess current helmet use and design programs to increase helmet wearing.

According to their estimates, motorcyclists account for more than 50 percent of the 1.2 million killed in road crashes every year, adding that the majority of those who die or are disabled in motorcycle accidents are from low and middle income nations, which is why the WHO is intensifying efforts to support governments to increase helmet use through their new publication - "Helmets: a road safety manual for decision-makers and practitioners."

The manual is a follow-up to the World Report on road traffic injury prevention, published in 2004 by WHO and the World Bank, which provided evidence that establishing and enforcing mandatory helmet use is an effective intervention for reducing injuries and fatalities among two-wheeler users. The manual has been produced under the auspices of the UN road safety collaboration, in collaboration with

(Continued next page)

the Global Road Safety Partnership, the FIA Foundation for the Automobile and Society, and the World Bank, as one of a series of documents that aim to provide practical advice on implementing the recommendations of the World Report.

"We want to make helmet use a high priority for national public health systems," says Dr. Anders Nordström, Acting Director-General of WHO. "We need to stress not only the effectiveness of helmets in saving lives, but the fact that helmet programs are good value for money. Countries will recoup their investment in these programs many times over through savings to their health care systems, as well as savings to other sectors."

Many countries have succeeded in raising rates of helmet use through adopting laws that make helmet use compulsory, enforcing these laws, and raising public awareness about the laws, as well as the benefits of helmet use.

"The importance of increasing helmet use follows dramatic growth in motorization around the world, largely from increasing use of motorized two-wheelers, particularly in Asian countries. In China, for example, motorcycle ownership over the last ten

years has increased rapidly. In 2004 it was estimated that more than 67 million motorcycles were registered in the country, and approximately 25% of all road traffic deaths were among motorcyclists and their passengers," reports the WHO.

The manual will be implemented in a number of countries over the next two years, starting in the ASEAN region through the Global Road Safety Partnership's GRSI initiative, but extending to cover countries from Africa, Latin America and the Middle East.

In addition to the publication of this manual, WHO has also established a network of experts working to increase helmet use, and supports helmet programs directly in its country work on road safety.

CELEBRITY CHOPPER BUILDER HURT IN FATAL CRASH Custom chopper-building legend Billy Lane, who has appeared on the Discovery Channel's "Biker Build-Off" and "Monster Garage," was injured in a head-on traffic accident on Labor Day that killed a man riding a small motorbike.

According to Florida Highway Patrol investigators, the 36-year old Lane was trying to pass two other vehicles on a double yellow-lined portion of A1A near Melbourne Beach, Florida when his southbound 2006 Dodge Ram pickup collided with a northbound 1983 Yamaha moped ridden by 56-year old Gerald Morelock. The

(Continued next page)

motorcyclist was wearing a helmet, but suffered extensive injuries and was pronounced dead at the scene.

Lane hit the street-legal motorbike head-on, and then his pickup hit a power pole, injuring himself and his female passenger.

Florida Highway Patrol traffic homicide investigators said no charges were filed, but added they were waiting on the results of blood-alcohol tests. "We do believe he was impaired based on the evaluations the trooper did on Mr. Lane," said Trooper Kim Miller, Florida Highway Patrol.

This was not Lane's first road incident this year. In June, he was arrested by the North Carolina Highway Patrol and charged with drunken driving. Police said Lane was riding a motorcycle the wrong way on a two-lane road without a helmet.

CANADIAN CITY INSTITUTES "NO COLORS" POLICY "Wearing colors of known criminal biker gangs is now officially unwelcome on city property," reported the Alberta Daily Herald Tribune, as Grande Prairie Mayor Wayne Ayling put up the first no-gang-colors policy sign on the front doors of City Hall to officially start the city's public campaign against criminal biker gangs.

"We believe it is inappropriate for people to advertise that they belong to a criminal gang on city property," said Ayling. He said although Grande Prairie is the first city in Western Canada to have such a program in place, three other major cities in Ontario - Barrie, Durham, and Toronto - already have similar programs.

Ayling said the goal now is to get local businesses to put up no-gang-colors signs on their premises, though he admitted that may be a hard sell for some local businesses that regularly have motorcyclists as customers.

Quality Hotel, for example, is involved in the Canadian Championship of Bike Building in Wembley and was involved with the Western Canadian Bike Builders Showcase last year. The hotel's general manager, Felix Seiler, said volunteering to support such a policy would put staff into the role of enforcers, something many are not qualified to do or should not be asked to do.

Mark Rodacker is manager of Countryside Motor Sports Inc., which deals with many clients that are into motorcycles. He felt the policy was "ridiculous" therefore his business wouldn't be involved with the program. "They seem to label anyone who owns a motorcycle as a biker and that being part of a biker club means they're going to be bad. They're stereotyping all bikers," he said.

(Continued next page)

The National Coalition of Motorcyclists (NCOM) has long fought against discriminatory legislation and opposes dress codes in public accommodations that unfairly discriminate against bikers. NCOM supports anti-discrimination laws that prevent establishments from discriminating against motorcyclists based on style of dress or mode of transportation.

WEIRD NEWS: NEW STAMP ISSUE MISPELLS "MOTORCYCLE" The Postal Service recently, with great fanfare, issued a new set of stamps depicting motorcycles. Collectors who buy copies issued on the first day the stamps are available can get them with a special commemorative postmark. Unfortunately, the colorful postmark issued during the Sturgis Motorcycle Rally in South Dakota misspells it "motorcyle."

Having discovered this, the post office announced Friday that new orders for first-day envelopes will have a corrected postmark. Unless the buyer wants it spelled wrong. In that case they can still order the version with the incorrect postmark. Just include a note asking for the incorrect version.

Any collectors who already have misspelled versions can trade them for the corrected version by sending them to INFORMATION FULFILLMENT, DEPT 6270, US POSTAL SERVICE, PO BOX 219424, KANSAS CITY, MO, 64121-9424.

QUOTABLE QUOTE: "To believe is very dull. To doubt is intensely engrossing. To be on the alert is to live. To be lulled into security is to die."

Oscar Wilde (1854 - 1900) Anglo-Irish poet/playwright

Dubious Achievers

Most accomplished Sewer Fisherman

Record Holder: Larry Harper

The Story: Oshkosh Wisconsin native, Larry Harper has been fishing in his town's sewers in his spare time for seven years and has caught 74 fish, 13 rats, 5 old shoes and a tennis racket to date. Harper has even caught a small alligator, using a tuna sandwich for bait.

Greatest number of citations for indecent exposure

Record Holder: Helga Svenstrup

The Story: Notorious in her hometown of Copenhagen, Denmark, 67 year old Svenstrup has been arrested 45 times for indecent exposure . At one of her hearings, she even flashed the presiding judge. Her greatest stunt: At a sold out soccer match, she ran onto the field dressed as a cheerleader and performed cartwheels without underwear before 50,000 cheering fans.

Fastest People Wearing A Horse Costume

Record Holders: Geoff Seal and Stuart Coleman

The Story: At a school playground 1999, dozens of pairs of Elmbridge England, citizens raced neck in neck two-man horse costumes for the title of Worlds Fastest Horse Impersonators. The fleet-footed victors Seal and Coleman "galloped" 328' in a record breaking 16.7 seconds.

GOALS & PURPOSES OF ABATE

To print a newsletter to keep all bikers informed with regard to legislative actions and events around the state and throughout the country.

To become a powerful and viable political force in legislative matters concerning all motorcyclists rights.

To provide a lobbyist to represent ABATE of Florida, Inc. on the state and national level.

To promote voter registration and motivate members to write their legislators.

To promote safe riding habits without infringing on individual rights.

To educate the public about motorcycle awareness.
