EDITORIAL GUIDELINES

You are encouraged to submit letters about ABATE related to events, articles, photographs, commentaries, etc. Please do not submit slanderous nor accusing letters, profanity nor nudity. Abate of Florida, Inc., will not accept any advertising that discriminates against any type of motorcyclist

Snooze had talked me into going the second weekend of Daytona BikeFest. I joined them at the Fastlane Campground at the fair grounds after I had my MRI. This was my first time there since it changed from the ABATE campground. So it brought back old memories. Great that Nighthawk brought his camper with our Chapter logos on it, made it easy to find. So we had Snooze, Nighthawk (Misty came a little later), Chino, Liza, Squirrel and Stix after he was off work. We spent Friday afternoon and night in the campground. The photos in this issue I took. So was good to stay there. There was a lot going on in the campground. Snooze and I ate a coal fired pizza.. So you can tell by my photos it was a nice place to be. We saw the burning bike, then we enjoyed our own campfire. Since I had left after my Friday am MRI I couldn't find my tent. So I slept in my car passenger seat. So I was not in good shape, it took the hot tube and a good massage to feel better. Saturday the group decided to go riding, and I went my own way.. I went to Granma's kitchen but found it was something else under construction. At our meeting Nighthawk said they moved into Deland. My next stop was the Cabbage Patch. Did a little shopping but was crowd so didn't see any coleslaw wrestling. Then was the long drive home.

ABATE of Florida, Inc. Mission Statement

WHO WE ARE

We are a non-profit organization of motorcycle enthusiasts from all walks of life. We lobby and educate the government and the general public to promote motorcycling in a safe and positive image. We endeavor to enlist the cooperation and participation of all organizations and individuals that share a similar interest in preserving our American tradition of FREEDOM. We promote motorcycle safety, training, & political awareness. We ARE NOT A CLUB NOR A GANG. We fund our work through events, toy runs, poker runs, campouts, and other motorcycle activities. We are your neighbors & friends who work, pay taxes, and get involved with our community. We serve and support our country and believe in freedom. We use all legal means to protect our rights without infringing on the rights of others. We are Pro-choice NOT anti-helmet, it is up to you to decide.

OUR GOALS

To become a powerful and viable political force in legislative matters concerning the motorcyclist.
To promote the safe riding habits without infringing on individual freedoms.
To motivate the bikers to write letters to legislators before, during, and after the legislative session.
To furnish a newsletter to keep all bikers informed in regards to upcoming legislation.

MEMBERSHIP

When you become a member of ABATE OF FLORIDA, INC. you are helping make a difference in the ongoing mission to protect your right to ride and enjoy the motorcycle of your choice, your choice of riding apparel, and when and where you can ride a motorcycle. These are issues that are real and present in today's "protect yourself from yourself" political environment. This holds true for all levels of government. There will always be those who see our love for motorcycling as a negative and will try any means to control and if possible prohibit motorcycle use.

On the local level our members get out to vote and support candidates who are sympathetic to our issues. We also will endeavor to lobby local governments whenever there are issues that need to be addressed, affecting local motorcycle use, ownership, and any discrimination that may result from said use of ownership.

At the state level we have a paid registered lobbyist who regularly visits our state capital in Tallahassee to lobby our legislators on the issues concerning the motorcycling public in Florida. He also finds reliable House and Senate sponsors for the bills we support. On the national level we are aligned with Motorcycle Riders Foundations (MRF), and the National Coalition of Motorcyclists (NCOM), along with several other international motorcycle rights organizations (MRO's).

As one can see we have our ear to the ground and our resolve tempered like steel. As Americans we have had it demonstrated to us time and again the vigilance is armor of free men and women. We shall not let the armor rust or weaken. With your support we can re-enforce and strengthen the armor for now and generations to come.

What else do you get with your membership? All members receive with their paid membership, the Membership Card, Event Discounts and Updates, Voting Privileges, Free Newsletter Classified Advertisements, a Chapter Newsletter, and a free \$4,000 Accidental Death or Dismemberment Insurance Policy from the American Income Life Insurance Company.

Memberships are open to anyone 18 years of age or older, no matter what type of motorcycle you ride, if any at all! We welcome all riders—in clubs, associations, independents, and sport riders to join us.

And for us with older eyes, can be zoomed in without magnifying glasses. We do need our advertisers, donations and more members to be able print and distribute more copies to the county for motorcyclists to be aware of the issues facing us. So please join in and let us know of good places to put them in. Issues can be mailed to members if no Internet access. Non-members can buy a subscription for \$20 a year but the other two methods are faster as it takes more time and cost to get mailings done.

As motorcycling technology continues to advance, your ability to repair your own motorcycle or seek out an independent mechanic may get restricted as manufacturers do not make repair information or parts available for purchase.

Consumers are facing this problem with almost every product they own, from their phone, to their tractor and for AMA members, their motorcycles. This issue is collectively known as "Right to Repair" and put in the simplest terms, right to repair is the idea that when you buy something, you have the right to repair it or seek an independent repair shop to do the work and manufacturers must make the parts and information needed for these repairs available to the public for a fair and reasonable price.

Fortunately, the U.S. House of Representatives has reintroduced the REPAIR Act (Right to Equitable and Professional Auto Industry Repair), [H.R. 906](#), for the 118th Congress. The bill would ensure that motorcyclists and independent repair shops have access to the information, tools, and parts needed to repair motorcycles. The AMA is asking you to tell your Representative to co-sponsor this bi-partisan bill and protect your right to repair.

If you would like to learn more about Right to Repair, you can read the Federal Trade Commission Report to Congress from May 2021 "[Nixing the Fix](#)" which details the ways some manufacturers limit repairs by consumers.

When I saw this woman at the Cabbage Patch at Bikeweek, I was taken by her beauty. Then I noticed her hat and we talked about DeSantis. It seems there is backing for him to run for next President. RepublicanReport.org has had so many stories yet DeSantis has not announced any plans on running. Trump doesn't want him as a running mate and even attacks our governor.. He has plans to defeat him if he does run against him. Nikki Haley, a former governor of S. Carolina and United Nations ambassador under Trump, has entered the President Republican race. He has said some negative things about DeSantis. The site has also suggested Biden might win again.

Crazy Split-Wheel Motorcycle Build Rides Like a Mechanical Bull

Yeah you can ride it for a few miles, but your brain won't exactly appreciate it.
BY LEWIN DAY PUBLISHED FEB 14, 2023 9:00 AM

A split-wheeled bicycle is a strange machine where the rear wheel has been carefully cut into multiple separate rotating pieces, somehow managing to support the bike just fine. YouTuber Bikes and Beards decided to see if the concept would work just as well on a full-size motorcycle. And, of course, the results were hilarious.

The build starts with a Honda CBR250. The lightweight starter bike was fitted

with an extended steel swingarm in order to mount an extra rear wheel cribbed from another CBR250. A chain was used to drive the second rear wheel from the first. As a three-wheeled bike, it rode well in testing. At this point, the real challenge began, however. The team had to figure out how to make the bike run with two rear half-wheels instead.

The big challenge here was how to cut the tires and wheels in half while still allowing them to support the bike. Unfortunately, half-circle inner tubes don't exist, nor do half-circle rims that hold air. Instead, the wheels and tires were simply cut in two with a Sawzall. Initial attempts then involved packing the tires with spray foam, akin to the way a runflat tire works. In the end, a large-diameter flexible poly pipe was used to support the tires instead, which were then riveted onto the half-rims.

Initial testing quickly revealed a problem. The ride was bumpy in the extreme, with the rear of the bike bucking as the split wheels turned. For the split-wheel concept to work, both half-wheels must contact the ground at the same height in order to smoothly support the bike. Appearances suggest the two half-wheels weren't precisely the same height, causing the back of the bike to jump up and down.

Of course, that was no impediment to putting the bike through its paces. One rider was able to ride the bike up to 30 mph despite the heavy vibration from the rear. The bike looks most hilarious at slow speed, though, where the periodic up-and-down motion is most evident.

The team later attempted strapping down the suspension to quell the issue, but to no avail. Filling the tubing inside the tires with rubber chips and sealing them with spray foam similarly failed to help.

Despite the issues, the bike did work. It was rideable, just in an incredibly frustrating and hilarious way. The bumpy rear end did put paid to any plans for a celebratory burnout. However, the team plans to fix the issue and put the bike through a top-speed run once the problems are solved.
